School Quotes

George Washington Carver

“Education is the key to unlock the golden door of freedom.”

Margaret Mead

“Children must be taught how to think, not what to think.”

Malcom X

“Without education, you are not going anywhere in this world.”

Jim Henson

“Kids don’t remember what you try to teach them. They remember what you are.”

William Arthur Ward

“The mediocre teacher tells. The good teacher explains. The superior teacher demonstrates. The great teacher inspires.”

Ignacio ‘Nacho’ Estrada

“If a child can’t learn the way we teach, maybe we should teach the way they learn.”

John Dewey

“If we teach today’s students as we taught yesterday’s, we rob them of tomorrow.”

Anonymous

“Students don’t care how much you know until they know how much you care.”

Subject: Release of 2016 Census Data for Local Educational Agencies for Fiscal Year 2018 Title I, Part A Allocations

Please click on the link below to see the table that show the 2016 population and poverty estimates for the local educational agencies (LEAs) in South Dakota and the State-level estimates, which the United States Census Bureau (Census Bureau) released on November 30, 2017. These data are also available at: <https://www.census.gov/programs-surveys/saipe.html>.

The U.S. Department of Education (ED) will use the 2016 Census data to calculate fiscal year 2018 (school year (SY) 2018–2019) allocations under Title I, Part A of the Elementary and Secondary Education Act of 1965, as amended by the Every Student Succeeds Act (ESEA).

Reviewing the Census data

The Census data estimates are based on a statistical model that incorporates information from the Census Bureau's American Community Survey, administrative records taken from Federal income tax returns and the Supplemental Nutrition Assistance Program, the most recent decennial Census, updates to population estimates that the Census Bureau may have completed since the last decennial census, data on Supplemental Security Income recipients, and economic data from the Bureau of Economic Analysis. The Census Bureau has established a challenge period for reviewing these data and requests that corrections be submitted in cases where *non-statistical* errors can be documented. Such errors generally include errors that the Census Bureau may have made in: (1) processing input data or running the estimation models/programs; or (2) in preparing or processing information to define geographic boundaries (e.g., school district boundaries).

This challenge period ends on **February 28, 2018**. Based on the two factors outlined in the previous paragraph, an SEA or LEA official may contact the Small Area Income and Poverty Estimates (SAIPE) Branch at the Census Bureau for further information about how to challenge these data.

SD English Learner Chats

Frequently Asked Questions

What is the purpose of the SD English Learner chats?

- The purpose of the SD English learner Chats is to form a community of educators supporting ELs and building academic language use for all students. This group will share resources, receive on-going professional development and focus on current special topics as needed.

When will the SD English Learner Chats be?

- The SD English learner Chats will be every third Tuesday of each month via Skype for Business

Where do I get call-in information?

- Webinar call information can be found here: <http://doe.sd.gov/oess/TitleIIIlela.aspx>

What will the webinar be like?

- For the first 15 minutes, webinar moderators will spend time discussing hot topics in the EL world. The rest of the webinar will be focused on the discussion for that month. However, please feel free to bring any questions that come up in your district about ELs.

Who should participate?

- Anyone in the K-12 setting who works with English learners is welcome to participate!
- Any teacher working with English learners could participate in these webinars. Whether you hold the ENL Endorsement, or you are in the content classroom, these webinars will help you support language development for English learners (ELs) in language development and build academic language skills for all your students in all content areas.

FAMILIES PARTNERSHIPS COMPASS

The South Dakota Guide to Inspiring Partnerships Between Home and School is a new tool developed to help build relationships between home and school and support educators as they work with families to support learning. Over 50 years of research shows that effective family school partnerships are key to successful academic achievement for students.

The guide and the toolkit are available at the following link:
